

Are you fully vaccinated?

You are fully vaccinated two weeks after your final dose of a COVID-19 vaccine.

If it has been less than two weeks since your final shot for the vaccine, then you are not fully protected.

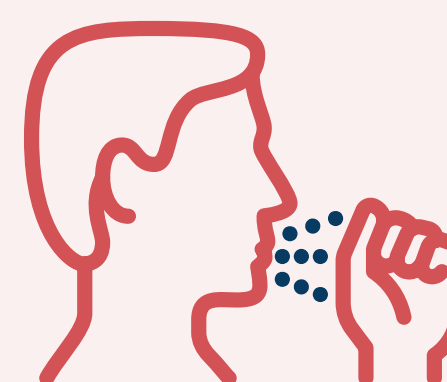

AFTER YOU'RE FULLY VACCINATED, WHAT YOU CAN DO?

You can gather with **fully vaccinated** people indoors without wearing a mask.

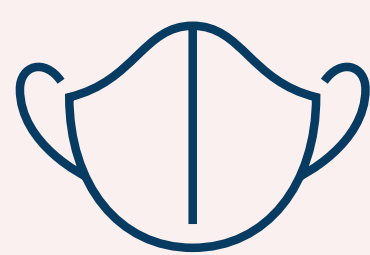

You can gather with **low-risk unvaccinated** people from **one other household** without wearing a mask.

You **do not** need to stay away from others or get tested if you've been around someone who has COVID-19, unless you have symptoms.

- **Continue to protect yourself and everyone else by practicing the 3 Ws:**
 - In public
 - When visiting with unvaccinated people from multiple other households
 - Around unvaccinated people who are at high risk of getting severely ill from COVID-19

WEAR
a mask over your nose and mouth.

WAIT
6 feet apart. Avoid close contact.

WASH
your hands or use hand sanitizer.

- **Avoid large gatherings**
- **Delay domestic and international travel**
